## Hahamongna Multi-Benefit/Multi-Use Project

The City of Pasadena Department of Public Works is preparing an Environmental Impact report (EIR) for a project on the western edge of Hahamongna Watershed Park entitled, the Hahamongna Multi-Benefit/Multi-Use Project.

The Hahamongna Multi-Benefit/Multi-Use Project is comprised of 4 CIP (Capital Improvement Projects): a) the Westside Perimeter Trail b) Sycamore Grove Field; c) a portion of the Berkshire Creek Project; and d) habitat restoration along the western edge of the Devil's Gate basin. A number of funding sources are making the implementation of these projects possible.

Community participation is a critical part of the EIR process. A Community Meeting will be held in advance of commencing the EIR process to assist the community in better understanding this project. Two public scoping meetings will be held to further define and receive public input on the scope of this important project. An Initial Study will be available in advance of the Scoping Meetings at the project website.

### **Community Meeting**

Wednesday, June 27<sup>th</sup>
6:30pm
Pasadena City Yards
2<sup>nd</sup> floor Large Conference Room

### **Scoping Meetings**

Thursday, July 12<sup>th</sup>
