Dear Mr. David Sinclair,

After reviewing the Draft EIR report, I want to officially express my opposition to using the Rose Bowl for any and all future NFL events.

It is clear in the preliminary report that more than doubling the number of civic events at the bowl every year will create several adverse environmental impacts on the city and the areas surrounding the Rose Bowl. Those include air quality, noise, recreation and transportation. My husband, CC'd on this email, and I feel given the results we cannot support the city's efforts to bring the NFL to the Rose Bowl.

We look forward to reviewing the final report.

Thank You,
