Matrix Report Recommendations: Implementation Summary and Update July 30, 2015

| Matrix | | Matrix Report Page | | | |
|--------|--|--------------------|----------------|--------------------------------|---|
| Rec. # | Recommendation | No. | Depts Involved | Status | Notes |
| 1 | The management study of the development review process should be distributed to the departmental directors, managers and supervisors of the City that are involved in the development review process for review and input. | 17 | ALL | Complete | |
| 2 | The Planning Director and Deputy Director should review the proposed plan of implementation and the summary of recommendations in this report with these e managers and supervisors of the City that are involved in the development review process, modify the plan of implementation as appropriate, and submit the revised plan of implementation to the Office of the City Manager | 17 | PCD | Complete | |
| 3 | After acceptance of the report and the implementation plan by the Office of the City Manager, a semi-annual status report outlining implementation progress should be provided to the Office of the City Manager by the Planning and Community Development Department. | 17 | PCD | Complete | |
| 4 | The Planning and Community Development Department should define in writing the desired outcomes for the Permit Center. | 124 | PCD | In-Process- short term | Will be completed with website update: IRT work program (Virtual Permit Center Intiative) |
| 5 | The Planning and Community Development Department should publish these desired outcomes to the Permit Center web site. | 124 | PCD | In-Process- short term | Will be completed with website update: IRT work program (Virtual Permit Center Intiative) |
| 6 | A Permit Center Manager should manage the Permit Center. This should not be a new position. | 128 | PCD/HR | Evaluated and Rejected | |
| 7 | Four Permit Technicians should be assigned to the Permit Center. This would require the creation of a new classification. These should not be four new positions. | 128 | PCD/HR | Pending new job classification | Permit Technican job series |
| 8 | The six (6) positions in the Engineering Services Section, Engineering Division, of the Department of Public Works should be physically located in the Permit Center Building. | 134 | PCD/PW/HR | Complete | |
| 9 | The Operations Assistant in the Engineering Services Section, should be reallocated to the Permit Center, and classified within the Permit Technician classification series. The position should report to the Permit Center Manager. | 134 | PCD/PW/HR | Evaluated and Rejected | These positions have limited interaction with the public as part of the permit process. Space challenges within the Permit Center to accommodate additional staff |
| 10 | One of the ten (10) positions in the Utility Service Planning Group, Power Delivery Business Unit, Water and Power Department should be physically located in the Permit Center Building for the same hours the Permit Center is open for business to the public. | 137 | PCD/WP/HR | Evaluated and Rejected | These positions have limited interaction with the public as part of the permit process. Space challenges within the Permit Center to accommodate additional staff |
| 11 | The three (3) positions in the Transportation Planning and Development Division should be physically located in the Permit Center Building. | 139 | PCD/TD/HR | Evaluated and Rejected | These positions have limited interaction with the public as part of the permit process. Space challenges within the Permit Center to accommodate additional staff |

| Matrix | | Matrix Report Page | | | |
|--------|--|--------------------|----------------|-----------------------------------|--|
| Rec. # | Recommendation | No. | Depts Involved | Status | Notes |
| | One of the staff of the Environmental Health Services Division should be physically assigned to and based in the City's Permit Center not less than four hours each workday – Monday through Friday with responsibility for plan checking land entitlement permits and building permits, and participating in the development review process with other divisions and departments that are | | | | |
| 12 | similarly assigned to the Permit Center. | 141 | PCD/ENV | Complete | Health staff have dedicated work area in the Permit Center |
| 13 | The Staff Assistants of the Code Compliance Division should not staff the Permit Center to serve applicants seeking occupancy inspections, zoning code inspections, mitigation monitoring inspections, yard sale permits, temporary banner permits, etc. | 143 | PCD | Pending new job classification | Permit Technican job series |
| 14 | The Permit Technicians assigned to the Permit Center should respond to applicants seeking occupancy inspections, zoning code inspections, mitigation monitoring inspections, yard sale permits, temporary banner permits, etc. | 143 | PCD | Pending new job classification | Permit Technican job series |
| 15 | The Permit Center should use the automated permitting information system to enable applicants to complete and pay for a permit application via the Internet, eventually involving all over-the-counter transactions. | 144 | PCD/IT/FIN | Pending new LMS | |
| 16 | The Permit Center should issue not less than 15% to 20% of building permits on- line using the Internet and the automated building permit information system. | 144 | PCD/IT | Pending new LMS | |
| 17 | The City should acquire software to enable electronic submittal and plan check of building permit plans. | 146 | PCD/IT | Pending new LMS | |
| 18 | The City will need to work with and train its customers in how to submit building permit plans electronically. | 146 | PCD/IT | Pending new LMS | |
| | The City will need to train its staff in how to plan check plans electronically. This should include training for the City's system administrator from the Department of Information Technology, training for plan check staff in how to utilize the software for plan checking, workflow training for the staff of the Permit Center, | | | | |
| 19 | etc. | 146 | PCD | Pending new LMS | |
| 20 | The City should develop written guides for electronic building permit plan submission, published on-line at the Permit Center web site, regarding the requirements for electronic plan check building permit submittals. | 146 | PCD | Pending new LMS | |
| 21 | The process for intake and plan check of simple building permits should be simplified. Only two desks in the Permit Center should be involved in the plan check of simple building permit plans: Reception and Permit Processing (or the Permit Technician at the Permit Processing Desk). | 150 | PCD | Pending new job classification | Permit Technican job series |

| Matrix | | Matrix Report Page | | | |
|--------|--|--------------------|----------------|------------------------|--|
| Rec. # | Recommendation | No. | Depts Involved | Status | Notes |
| | The plans examiners from the Building and Safety Division, the Planners from | | | | |
| | Zoning, and the Planners from Design and Historic Preservation should not be | | | | |
| | involved in intake and plan check of simple building permit plans unless requested | | | Pending new job | |
| 22 | by the Permit Technician. | 150 | PCD | classification | Permit Technican job series |
| | | | | | |
| | The cashier assigned to the Permit Center by the Finance Department should not | | | | |
| | be involved in the intake and plan check of any building permit plans: the Permit | | | | |
| | Technicians should function as the cashiers. The cashier position assigned to the | | | Pending new job | |
| 23 | Permit Center by the Finance Department should be eliminated through attrition. | 150 | PCD/FIN | classification | Permit Technican job series |
| | The Permit Center should clarify on its web page those types of permits that will | | | | |
| | be plan checked over-the-counter, and that would only involve intake and plan | | | Pending new job | |
| 24 | check by Permit Technicians. | 150 | PCD/IT | classification | Permit Technican job series |
| | | | | | |
| | The City should expand the types of building permits issued over-the-counter | | | Pending new job | |
| 25 | beyond single trade permits, and that should involve only the Permit Technicians. | 150 | PCD | classification | Permit Technican job series |
| | The Planning and Community Development Department should work with the | | | | |
| | Finance Department to consolidate business licensing for businesses that are | | | | |
| | attempting to obtain a building permit in one location: the Permit Center This | | | | |
| | would require that the staff of the Permit Center be able to utilize the business | | | | |
| | license software upon their training in its use and the provision of written user | | | Pending new job | |
| 26 | guides. | 155 | PCD/FIN | classification | Permit Technican job series |
| 27 | The web site for the Permit Center should include a guide to opening a restaurant. | 155 | PCD/ENV | In-Process- short term | Part of IRT Work Program (Staff Utilization Initiative) |
| | The Planning and Community Development should create a map or directory of all | | | | , and a second s |
| | restaurant inspections needed, who makes the inspections, why, and at what | | | | |
| | point in the construction process, and publish this map or directory to the Permit | | | | |
| 28 | center web site. | 155 | PCD/ENV | In-Process- short term | Part of IRT Work Program (Staff Utilization Initiative) |
| | | | · | | Ţ, |
| | Ultimately, the City should consider a long-term goal of having one department | | | | |
| | make all the inspections related to new restaurant construction including fire, | | | | |
| 29 | building, and food safety codes related to new construction. | 155 | MULTI | In-Process -long term | This is a long term goal that will be studied by IRT |
| | Upon the development of citywide design guidelines (as recommended elsewhere | | | | |
| | in this report) including storefront design guidelines, the authority to approve or | | | | |
| | disapprove façade improvements and new signage should be delegated to staff of | | | | |
| | the Planning Department. These approvals, at staff level, should be appealable to | | | | |
| | I and a second of the second o | | | 1 | 1 |

| Matrix | | Matrix Report Page | | | |
|--------|--|--------------------|----------------|------------------------|--|
| Rec. # | Recommendation | No. | Depts Involved | Status | Notes |
| | The staff of the Planning Division should facilitate concurrent processing of all | | | | |
| | restaurant permit applications. This should include, for instance, submit for | | | | |
| | conditional use permit, design review, encroachment permits (for open air | | | | |
| | dining), in-lieu parking and other permit types at the same time, instead of | | | | |
| 31 | sequentially as is the case presently. | 155 | PCD | In-Process -long term | This is a long term goal that will be studied by IRT |
| | | | | | |
| | The staff of the Planning Division, that are assigned to the Permit Center, should | | | | |
| | not be routed minor building permits for zoning clearance. This includes fence | . = - | | Pending new job | |
| 32 | permits, landscape / hardscape permits, and paving permits. | 159 | PCD | classification | Permit Technican job series |
| | The Planning Division should not assign two planners to the Permit Center: one | | | | |
| | from the Zoning Section and the other from the Design and Historic Preservation | | | | |
| | Section. One planner should be assigned to represent the zoning, design, or | | | Pending new job | |
| 33 | historical preservation perspective. | 160 | PCD | classification | Permit Technican job series |
| | If that planner encounters a land entitlement permit or a building permit beyond | | | | |
| | their expertise, the planner can call for the assistance of a more experienced | | | Pending new job | |
| 34 | planner at the Permit Center. | 160 | PCD | classification | Permit Technican job series |
| | The Planning Division should develop and implement a written policy and | | | | |
| 35 | procedure on land development application completeness. | 162 | PCD | Complete | New application processing procedures in place |
| | The Planning Division should provide training on the policy and procedure on land | | | | |
| 36 | development application completeness to staff of the Planning Division. | 162 | PCD | Complete | New application processing procedures in place |
| 30 | The Planner on duty at the Permit Center should check land entitlement permit | 102 | 1 CD | Complete | New application processing procedures in place |
| | applications at submittal to assure these applications meet essential submittal | | | | |
| 37 | requirements and reject incomplete applications. | 163 | PCD | Complete | New application processing procedures in place |
| | The applicant, after the land entitlement permit has initially been deemed | | | · | <u> </u> |
| | incomplete, should be required to submit as part of their second submittal a | | | | |
| | memorandum that lists each of the items that was cause for the application being | | | | |
| | deemed incomplete and what measures the applicant has taken to address each | | | | |
| 38 | item on the list. | 163 | PCD | Evaluated and Rejected | This was determined to be to burdonsome for applicants |

| Matrix | | Matrix Report Page | | | |

| Rec. # | Recommendation | No. | Depts Involved | Status | Notes |
| | | | | | |
| | The application guides for the Diaming Division should be enhanced. The | | | | |
| | The application guides for the Planning Division should be enhanced. The | | | | |
| | application guides should provide background information on how to apply for an | | | | |
| | application. The Planning Division should include, in a single Adobe Portable Document Format application guide, all of the documents necessary to submit an | | | | |
| | application, rather than require the applicant to find all of the relevant documents | | | | |
| | on the Permit Center web site. The Planning Division should include instructions | | | | |
| | on how to prepare certain aspects of applications. The Planning Division should | | | | Handout on Development Review Process is at final editing. |
| | evaluate what is not and what is required for submittal of land entitlement permit | | | | Completion in August. Additional application guides and |
| | applications in the application guides. The Division should clarify in what | | | | process handouts are underway. Estimate completion in |
| | instances supplemental information will be required. The application guides | | | | September. Part of IRT Work Program (Personalized Case |
| 39 | should include suggested tips for success on the part of the applicant. | 164 | PCD | In-process- short term | Manager Initiative) |
| 39 | should include suggested tips for success on the part of the applicant. | 104 | FCD | in-process- short term | Manager mitiative) |
| | The Planning Division should conduct periodic workshops for consulting planners, | | | | |
| | architects, engineers, developers and others involved the land entitlement permit | | | Pending new job | |
| 40 | process regarding land entitlement permit submittal requirements. | 168 | PCD | classification | New concierge position |
| | The case manager assigned to a land entitlement permit application by the | | | | |
| | Planning Division should meet with the permit applicant to discuss issues that | | | | |
| | have been found during the initial review of the application if the application was | | | | |
| 41 | deemed incomplete. | 168 | PCD | Complete | New application processing procedures in place |
| | | | | ' | |
| | | | | | A comprehensive fee study is being planned for FY16. The |
| | | | | | current fee structure is based on the amount of hours spent |
| | | | | | on processing an application (staff resources), not on the |
| | The fee structure for land entitlement permit applications should provide the | | | | number of times the application is incomplete. More often |
| | option to require additional payments by the applicant should the application be | | | | than not, an applicant is motivated to have their application |
| | deemed incomplete more than twice. These payments would be based upon the | | | | processed timely, so, if fees are based on total staff effort, |
| | amount of hours required to process an application to approval (or disapproval) | | | | and the applicant is motivated to process, there is no reason |
| 42 | after an application has been deemed incomplete twice. | 169 | PCD/FIN | Evaluated and Rejected | to charge extra for additional incomplete letters. |
| | · | | | | · |
| | The web site for the Permit Center should be modified to provide a single web | | | | |
| | site portal for all permits regardless of whether these are planning, building, | | | | |
| 43 | engineering, fire, traffic, or water and power permits. | 170 | PCD/IT | Pending new LMS | |
| | There should be a link to the Permit Center web site portal on the City's home | | | | |
| 44 | page. | 170 | PCD/IT | Complete | Real Wait Times on-line and Mobile App are also complete. |
| | | | | | |
| | Once the City acquires a full-featured automated permit information system, | | | | |
| | applicants should be able to pay application fees on-line, check the status of their | | | | |
| | permits on-line, view plan check comments made by staff, schedule or cancel | | | | |
| 45 | inspections, check the results of inspections, apply for simple permits on-line, etc. | 170 | PCD/IT/FIN | Pending new LMS | |

5

| Matrix | | Matrix Report Page | | | |
|----------|---|--------------------|----------------|------------------------|---|
| Rec. # | Recommendation | No. | Depts Involved | Status | Notes |
| | The web site for the Permit Center should enable electronic plan submission, | | | | |
| | review, and tracking, a paperless initiative for construction plan approval and | | | | |
| 46 | secure, web-based collaboration. | 170 | PCD | Pending new LMS | |
| | The web site for the Permit Center should enable automated e-mail notification | | | | |
| | so that applicants can receive automatic e-mail notifications of plan review or | | | | |
| | inspection activity on a specific process or permit. Notifications should | | | | |
| | automatically be sent to the applicant within one hour of a plan review or | | | | |
| 47 | inspection update. | 170 | PCD/IT | Pending new LMS | |
| | The web site for the Permit Center should provide answers to frequently asked | | | | |
| 48 | questions. | 170 | PCD/IT | In-Process- short term | Part of IRT Work Program (Virtual Permit Center Initiative) |
| | The web site for the Permit Center should include a dedicated web page for | | | | |
| | business that includes resources for starting a business, obtaining / renewing a | | | | |
| | business license, streamlined permit assistance (e.g., over-the-counter plan | | | | |
| | check), a link to the City's Economic Development Division with up-to-date | | | | |
| | information on available commercial and industrial land and buildings in the City, | | | | |
| | utility business incentive programs (e.g., solar energy program, energy audits, | 1=0 | / | | |
| 49 | etc.), etc. | 170 | PCD/ED | In-Process- short term | Part of IRT Work Program (Virtual Permit Center Initiative) |
| | The web page for the Permit Center should also include streamed information | | | | |
| | regarding wait times for the Permit Center. This will require replacement of the | | | | |
| 50 | existing queuing software used by the Permit Center. | 170 | PCD/IT | Complete | Mobile App also complete |
| | | | | | |
| | The Permit Center should develop on-line guides to the development review | | | | Handout on Development Review Process is at final editing. |
| | process. The guides should be developed and structured around specific types of | | | | Completion in August. Additional application guides and |
| | development. The guides should steer the applicant through each of the steps | | | | process handouts are underway. Estimate completion in |
| | necessary including pre-application, application and land entitlement, plan review | | | | September. Part of IRT Work Program (Personalized Case |
| 51 | and permitting, inspections, and the certificate of occupancy. | 172 | PCD/IT | In-process- short term | Manager Initiative) |
| | | | | | |
| | Once the technology systems have been installed and deployed in the Permit | | | | |
| | Center, the roles of the staff of Permit Center have been expanded to include plan | | | | |
| | checking of simple building permit plans, and the Operations Assistant of the | | | | |
| | Engineering Services Section, Engineering Division, of the Department of Public | | | | |
| | Works reallocated to the Permit Center, the Matrix Consulting Group recommends that the number of positions within the Permit Center can be | | | | |
| 52 | reduced somewhat by one position. | 173 | PCD | Evaluated and Rejected | |
| <u> </u> | The zoning permit, the process of checking for zoning conformance, should be | 2.0 | | | |
| | accomplished by Permit Technicians with the use of checklists and with the | | | | |
| | provision of training by the staff of the Zoning Section in the use of these | | | Pending new job | |
| 53 | checklists. | 187 | PCD | classification | Permit Technican job series |
| | The adjustment permit should be eliminated altogether, and a minor variance | | | | |
| 54 | permit used instead. | 187 | PCD | Evaluated and Rejected | |

6

| Matrix | | Matrix Report Page | | | |
|--------|--|--------------------|----------------|------------------------|--|
| Rec. # | Recommendation | No. | Depts Involved | Status | Notes |
| | The expressive use permit should be eliminated altogether, and a conditional use | | | | |
| 55 | permit required instead. | 187 | PCD | Evaluated and Rejected | |
| | The sign exception permit should be eliminated, and a minor variance permit | | | | |
| 56 | utilized instead. | 187 | PCD/CA | Evaluated and Rejected | |
| 57 | The Zoning Administrator should serve as the review authority for new building wall signs in the Central District, new signs and awnings (for all projects requiring design review only) outside the Central District, and creative signs should be approved (or disapproved as appropriate) at the Planning Director level. | 187 | PCD | Evaluated and Rejected | |
| | The City should update its sign design guidelines as part of the development of | 107 | T CD | Evaluated and Rejected | Part of FY 16 Planning and Community Development Work |
| 58 | overall design guidelines for the City as a whole. | 187 | PCD | In-process short term | Program |
| 59 | The case manager in the Zoning Section is taking thirty (30) calendar days to determine whether the land entitlement permit application is complete. As recommended elsewhere in this report, this responsibility should be front-shifted to the Permit Center as much as possible. | 189 | PCD | Complete | This item will return to City Council in September 2015 and will address several process changes |
| 60 | Staff from the Zoning Section should distribute the land entitlement permit application to other divisions / departments for comment before the application is deemed complete. | 189 | MULTI | Complete | New application processing procedures in place |
| 61 | Staff of the Zoning Section should not wait until after the land entitlement permit is deemed complete to begin the CEQA review process. This CEQA review process should be integrated into the determination of whether an application is complete, not after the 30-day completeness review, particularly for those applications that are exempt from CEQA. | 189 | PCD | Complete | New application processing procedures in place |
| 01 | The City should authorize the preparation of citywide design guidelines using a | 103 | 1 05 | Complete | Part of FY 16 Planning and Community Development Work |
| 62 | consulting architectural / planning firm. | 190 | PCD | In-process short term | Program |
| 63 | Upon development and adoption of the citywide design guidelines, the consulting architectural / planning firm retained to develop these guidelines should train the staff of the Design and Historic Preservation Section in their application. | 190 | PCD | In-process short term | Part of FY 16 Planning and Community Development Work Program |
| 64 | Upon the development and adoption of the citywide design guidelines and the training of the staff of the Design and Historic Preservation Section in their application, the design review process in Pasadena should be streamlined. The design review applicant should only be required to submit two types of applications to the Design Commission: a conceptual design and a final design. The initial meeting - conceptual design - should focus on the location and massing of the structures. The second meeting - final design - should address materials, landscaping, and architectural details. | 194 | PCD | In-process short term | This item will return to City Council in September 2015 and will address several process changes |

| Matrix | | Matrix Report Page | | | |
|--------|---|--------------------|----------------|-----------------------|---|
| Rec. # | Recommendation | No. | Depts Involved | Status | Notes |
| 65 | Upon development and adoption of the citywide design criteria and the training of the staff of the Design and Historic Preservation Section in their application, the design criteria for the North Lake specific plan area should be brought into conformance with the other areas of the City, with the exception of the Central Business District. Upon development and adoption of the citywide design criteria, the criteria for review of projects in North Lake should be adjusted to 25,000 square feet for alterations, additions, and new construction. The staff of the Design and Historic Preservation Section would review projects that fall below that criterion for conformance with the citywide design criteria. | 194 | PCD | In-process short term | Will be studied as part of Comprehensive Design Guidelines |
| 66 | Upon development and adoption of the city-wide design criteria and the training of the staff of the Design and Historic Preservation Section in their application, the criteria for review of projects in the City of Gardens and senior housing in the PS District should be adjusted to 25,000 square feet for alterations, additions, and new construction. The staff of the Design and Historic Preservation Section would review projects that fall below that criterion for conformance with the citywide design criteria. | 194 | PCD | In-process short term | Will be studied as part of Comprehensive Design Guidelines |
| 67 | The staff of the Design and Historic Preservation Section should work closely with the applicant to attain compliance with the citywide design guidelines, and make recommendations to the Design Commission regarding project approval (or | 101 | 200 | | |
| 67 | Upon development and adoption of the city-wide design criteria and the training of the staff of the Design and Historic Preservation Section in their application, only one submittal of the application should be made to the Design Commission: not a preliminary and a final, just a final application. This would only occur if the applicant did not request a departure from the citywide design guidelines; such a | 194 | PCD | Complete | New application processing procedures in place. This item will return to City Council in September 2015. None of the proposed revisions involve elimination of concept and preliminary consultation and reducing the design process to a |
| 68 | departure request should necessitate a preliminary and a final design review. The Design and Historic Preservation Section should mimic the Zoning Section and utilize an Excel spreadsheet to manage the design review permit workload. Ultimately, both sections should utilize the automated permit information system to plan, schedule, and manage permit workload when a new state-of-the-art | | PCD | In-process short term | single step is not currently being studied. |
| 69 | automated permit information system is acquired. The case planner in the Design and Historic Preservation Section is taking thirty (30) calendar days to determine whether the design review application is complete. This responsibility should be front-shifted to the Permit Center as much | 199 | PCD | Complete | |
| 70 | as possible. | 199 | PCD | Complete | New application processing procedures in place |

| Matrix | | Matrix Report Page | | | |
|--------|---|--------------------|----------------|----------------------|--|
| Rec. # | Recommendation | No. | Depts Involved | Status | Notes |
| 71 | The review of the draft staff reports that will be submitted to the Design Review Commission should not require multiple reviews by multiple managers in the Planning and Community Development Department. This review should be reduced to either the Senior Planner or the Principal Planner. One manager quality controlling the staff report should be sufficient. | 199 | PCD | Complete | New application processing procedures in place |
| 72 | In instances in which land entitlement permits involve multiple land use permit applications, the applications should be processed concurrently. This would mean that the design review application, certainly at the concept design review, should proceed concurrently with the permit being processed by the Zoning Section | 100 | DCD. | Constitute | Nav. and in this case of the state of the st |
| 72 | including CEQA review. For the 50% design review application, the applicant should gather necessary materials for the submittal based upon a list provided by case manager, with an | 199 | PCD/IT | Complete | New application processing procedures in place |
| 73 | on-line list provided at the Section's web page. The Planning and Community Development Department should move towards a model in which these specialists in the Design and Historic Preservation Section continue to be the lead in processing design review and historic preservation permit applications, but that these staff also process zoning applications whenever these design review and historic preservation permit applications are just one part of multiple applications (e.g., a conditional use per it and a design review permit. This should include any CEQA implications associated with these zoning permits. | 201 | PCD PCD | Complete Complete | New application processing procedures in place This policy is implemented case by case with the goal of ensuring that project applications are processed by staff with appropriate expertise and knowledge |
| 75 | The Planning and Community Development Department should move towards this model only after the professional-level planners in the Design and Historic Preservation Section are provided with training in processing zoning permits and in the interpretation of the zoning ordinance. | 201 | PCD | Complete | This policy is implemented case by case with the goal of ensuring that project applications are processed by staff with appropriate expertise and knowledge |
| 76 | The staff in the in the Design and Historic Preservation Section should continue to receive ongoing training in design review and historic preservation. | 201 | PCD | Complete | |
| 77 | The staff in the Design and Historic Preservation Section should be assigned a "mentor" in the Zoning Section – either of the two (2) Senior Planners – to coach them in the processing of these zoning applications. | 201 | PCD | Complete | This policy is implemented case by case with the goal of ensuring that project applications are processed by staff with appropriate expertise and knowledge |
| 78 | Initially, the staff in the Design and Historic Preservation Section should be utilized to process minor zoning permits such as minor conditional use permits. | 201 | PCD | Complete | This policy is implemented case by case with the goal of ensuring that project applications are processed by staff with appropriate expertise and knowledge |

| Matrix | | Matrix Report Page | | | |
|----------|--|--------------------|----------------|------------------------|---|
| Rec. # | Recommendation | No. | Depts Involved | Status | Notes |
| | However, the staff in the Design and Historic Preservation Section should process | | | | |
| | any design review permit application that is associated with a zoning permit. This | | | | This policy is implemented case by case with the goal of |
| | should only be done after the provision of training and with the "mentor" | | | | ensuring that project applications are processed by staff with |
| 79 | coaching these staff in the processing of these types of applications. | 201 | PCD | Complete | appropriate expertise and knowledge |
| | G. Commission of the state of t | - | - | | |
| | The staff of the Zoning Section should also be provided with training in processing | | | | |
| | design review applications: initially minor design review applications. These staff | | | | The staff resources necessary to process plan checks and |
| | should be utilized to process – initially – minor design review applications. This | | | | entilement applications in the Zoning Administration section |
| | would include - minor projects - signs, awnings, paint color or similar minor | | | | has escalated. From a customer service perspective, ii is not |
| | alterations and minor projects – new / replace storefronts. To enhance the ability | | | | desirable to have Zoning Adminstration planners working on |
| | of the staff of the Zoning Section to effectively process these applications, training | | | | Design Review applications, as this would take time away |
| | in design review for these types of minor applications should be provided for the | | | | from processing the many zoning applications and plan checks |
| 80 | professional-level planners of the Zoning Section. | 201 | PCD | Evaluated and Rejected | that are in process |
| - 00 | professional level planners of the Zonnig Section. | 201 | TCD | Evaluated and Rejected | that are in process |
| | Decision-making authority for the minor land entitlement permit applications | | | | |
| | should be delegated from the Zoning Hearing Officer to the Zoning Administrator | | | | |
| | including minor use permits; minor variances; tentative parcel maps; lot line | | | | |

|--------|--|--------------------|----------------|------------------------|--|
| Rec. # | Recommendation | No. | Depts Involved | Status | Notes |
| 156 | The Building and Safety Division should publish common plan check corrections on the Division's website to provide guidance to consulting architects, and engineers and developers in the construction requirements in Pasadena. | 297 | PCD | Evaluated and Rejected | In lieu of this, a comprehensive handout with the requirements for plan check has been completed for applicants to provide information prior to submittal of plan check |
| 157 | The Building and Safety Division and all of the divisions / departments involved in the building permit plan check process should utilize an "approved as noted" approach to approval of building permit plans for minor code issues that may be marked up so the plan review may be approved. | 297 | PCD | Complete | |
| 158 | The Chief Building Official, in consultation with the other divisions / departments involved in the building permit plan check process, should develop a written policy and procedure for the use of "Approved as Noted" for building permit plan checking. This policy and procedure should be published to the Division's web page and an "Approved as Noted" guide developed for consulting architects and engineers that prepare and submit building permit plans. | 297 | PCD | Complete | This is currently done through over the counter meetings and reviews with applicants |
| 159 | The Building and Safety Division should utilize an "Interactive Review" approach to approval of building permit plans. | 300 | PCD | Pending new LMS | |
| 160 | The Chief Building Official should develop a written policy and procedure for the use of the "Interactive Approach" for building permit plan checking. This policy and procedure should be published to the Division's web page and an "Interactive Approach" guide developed for consulting architects and engineers that prepare and submit building permit plans. | 300 | PCD | Pending new LMS | |
| 161 | The Building and Safety Division should develop and deploy a priority plan check process that accords architects and engineers that have earned high pass rates to be assigned a higher priority during initial and subsequent plan checking. In other words, the building permit plan check process should not be a "first in-first out" process. | 302 | PCD | Evaluated and Rejected | Evaluating as part of IRT Work Program (Metrics Initiative). This may be rejected as we do not want to create two levels of customer service. Goal is to provide one level of high customer service. IRT is looking at other ways to achieve this without a prioritization system that treats customers differently. |
| 162 | The Building and Safety Division should develop and deploy a conditional review program allows projects that architects and engineers that have earned high pass rates the ability to begin work in the field on code compliant areas of the project while noted non-code compliant areas will be addressed through subsequent plan checking. This is comparable to phased permitting. | 302 | PCD | Evaluated and Rejected | Evaluating as part of IRT Work Program (Metrics Initiative). This may be rejected as we do not want to create two levels of customer service. Goal is to provide one level of high customer service. IRT is looking at other ways to achieve this without a prioritization system that treats customers differently. |

| 163 | The Building and Safety Division should develop and deploy a collaborative review program that allows architects and engineers that have earned high pass rates to discuss code related issues with the Division's Plans Examiners and Senior Plans Examiners during the design of the project, prior to initial plan check. The level of initial plan check at the conclusion of the design of the project should be directly related to the level of "collaboration" performed during the design of the project. The Building and Safety Division should charge additional building permit plan | 302 | PCD | Evaluated and Rejected | Evaluating as part of IRT Work Program (Metrics Initiative). This may be rejected as we do not want to create two levels of customer service. Goal is to provide one level of high customer service. IRT is looking at other ways to achieve this without a prioritization system that treats customers differently. Most projects are approved by 4th re-check. Hourly plan |
| 164 | check fees for those building permit plans that require four (4) or more plan checks. | 302 | PCD | Evaluated and rejected | review is charged on case by case basis when comments are not responded to |
| 165 | The Chief Building Official should develop a written policy and procedure for the use of the priority plan check process, conditional review program, and collaborative review program. This policy and procedure should be published to the Division's web page and a guide developed for consulting architects and engineers that prepare and submit building permit plans. | 302 | PCD | Evaluated and rejected | Evaluating as part of IRT Work Program (Metrics Initiative). This may be rejected as we do not want to create two levels of customer service. Goal is to provide one level of high customer service. IRT is looking at other ways to achieve this without a prioritization system that treats customers differently. |
| 166 | The Building and Safety Division, as part of the update of the City's user fees, should include provisions that allow the Division to charge additional plan check fees for those building permit plans that require four (4) or more plan checks. | 302 | PCD | Evaluated and Rejected | Most projects are approved by 4th re-check. Hourly plan review is charged on case by case basis when comments are not responded to. |
| 167 | The Building and Safety Division should utilize the automated permit information system to assure that the status of each building plan is readily visible. | 304 | PCD/IT | Pending new LMS | |
| 168 | The Building and Safety Division should develop a monthly reporting system using the automated permit information system to report actual performance in processing building permit plans against metrics. | 304 | PCD | Complete | Part of IRT quartetly reporting |
| 169 | The two (2) vacant positions assigned to the Building and Safety Division – the Plan Check Engineer and the Senior Plans Examiner, should be filled immediately. | 305 | PCD | Complete | Positions filled, on-going issue to fill vacancies given current job market conditions |
| 170 | The Occupancy Inspection Program should not be continued in its present form. A total of 36% of the inspections found no active violations, and 33% were found to have minor violations relating primarily to the lack of smoke detectors and carbon dioxide detection devices. | | PCD | In-Process short term | This is currently being studied as part of the Code Compliance practices and procedures |
| 171 | The City should change the nature of the Occupancy Inspection Program to a Report of Building Records, but include a mandatory inspection if there are still "open" permits. | 315 | PCD | In-Process short term | This is currently being studied as part of the Code Compliance practices and procedures |
| 172 | The Code Compliance Officers should be held accountable for the quality and completeness of the data entered into the automated permit information system regarding their assigned cases. | 319 | PCD | Complete | |

| Rec. # | Recommendation | No. | Depts Involved | Status | Notes |
| 272 | In the short term, the Building and Safety Division should begin cross training of its inspection and plan checking staff for the building and the fire codes. This will likely take several years, but will enhance the ability of the Division to provide cost effective and responsive services. | 422 | PCD/Fire | Evaluated and Rejected | This is a long term goal. IRT is studying this as part of the Staff Utilization initiative. |
| 273 | In the longer-term, the Building and Safety Division should utilize its Building and Fire Safety Inspectors and Senior Building and Fire Safety Inspectors as combination inspectors responsible for enforcement of building and fire codes. This means one building site, one inspector for enforcement of building and fire codes. This can occur only after successful completion of training of this staff in fire inspection by professional organizations such as the International Code Council, and ongoing training to maintain this certification (estimated at 20 CEU hours per year). | 422 | PCD/CM | Evalauted and Rejected | |
| 2/3 | nouis per year). | 422 | PCD/CIVI | Evalauteu allu Nejecteu | |
| | In the longer-term, the Building and Safety Division should utilize its plans examiners for plan review of building construction plans for building <u>and</u> for fire codes. This cross utilization should focus on <u>simpler and smaller</u> building construction plans such as single family remodels, tenant improvements, fire sprinkler systems, commercial kitchen hoods, etc. This can occur only <u>after</u> successful completion of training of this staff in fire plans examining by professional organizations such as the International Code Council, and ongoing | | | | |
| 274 | training to maintain this certification (estimated at 20 CEU hours per year). | 422 | PCD/CM | Evalauted and Rejected | |
| 275 | The Supervising Plans Examiner and the Senior Plans Examiner positions, currently budgeted in the Fire Department, should continue to plan check building permit plans for adherence to fire codes. This responsibility should continue until successful completion of training by the plans examining staff in the Building and Safety Division in fire plans examining. | 422 | PCD/CM | Evalauted and Rejected | |
| | The responsibility for transportation planning should be reallocated from the Transportation Department to the Planning and Community Development | 1.22 | | | |
| 276 | Department. | 429 | PCD/CM | Evalauted and Rejected | |
| 277 | The three staff allocated to transportation planning – a Transportation Services Manager, Engineer, and Associate Engineer - should be transferred to the Planning and Community Development Department. | 429 | PCD/CM | Evalauted and Rejected | |
| 278 | In the long run, the three positions a Transportation Services Manager, Engineer, and Associate Engineer - should be reclassified within a transportation planner classification series to better reflect the role and responsibilities of these positions. | 429 | PCD/CM | Evalauted and Rejected | |
